Discipline Policy:

Discipline comes from the word disciple, which means, "one who is a learner". Therefore, disciple is a positive word, not a punitive action. Effective classroom management will start with encouraging acceptable behavior by giving positive verbal praise. For a child not cooperating in a group setting a verbal reminder will be used to set the standard of acceptable behavior, and then the child would be redirected. "Time- Out" will be used for a child who continually/and or Initially demonstrates unacceptable behavior. This time away from the group is used to help the child calm down and remember the appropriate behavior for the classroom setting. Time-out lasts one minute for each year of the child's age. If the behavior problems persist, the parents will be asked to have a conference with the teachers and director to work together to motivate the child to demonstrate positive behavior. _____(please initial)
